*We need a spark to lite a fire inside us. A spark is an inspiration to make art, a fear to find courage, and a pain to provoke strength. A spark is unplanned and unexpected incident that happens in the middle of your ordinary life. After that, it leaves a fire burning in your heart. A fire to achieve, a fire that will keep you going!"*

*Each one of us has a fire in our heart for something. It is our goal in life to find it and to keep it lit*

## **AMHS WESTERN HORSE STANDARD OF EXCELLENCE**

**GENERAL IMPRESSION** – The AMHS Western Horse is an attractive horse where everything is proportionate and all parts tie in smoothly. All gaits are smooth and purposeful exhibiting natural athleticism. Horses are judged on balance, structural correctness and sex characteristics. Of these, balance is the most important.

**STANCE** - The AMHS Western Horse normally stands at ease with its legs perpendicular to the ground and parallel with each other. The horse should exhibit a balanced stance and stand on the corners of its body, as opposed to being spread too far apart, crowded too close together or parked out.

**HEAD** - The head of an AMHS Western Horse reflects inquisitive intelligence. The horse has a short, broad head that is straight or slightly dished topped by small to medium ears hooked towards the centre line at the tips; kind wide-set eyes; large nostrils; small muzzle, and firm mouth. A domed forehead is a fault.

**BITE** - When viewed from the side, the meeting point of the centre incisor teeth should be equal and even. A deviation of no more than half the width of the tooth surface is permissible without fault.

**NECK** - The head of the AMHS Western Horse joins the neck at a roughly 45-degree angle, with a slender throat latch allowing him to move easily in any direction while maintaining his balance. The medium to long neck should be slightly arched and blend smoothly into sloping shoulders.

**SHOULDERS** - The AMHS Western Horse has a short strong back which is created by deep sloping shoulders tying in well back.

**CHEST AND FORELEGS** - As demonstrated by the heart girth and relatively wide-set forelegs, the AMHS Western Horse is deep and broad in the chest. Smooth joints and short cannon bones are set on clean fetlocks. Medium length pasterns are supported by healthy hooves. The forearm tapers to the knee, whether viewed from the front or back.

**BACK** - The short back of the AMHS Western Horse is full and strong across the loins. The barrel is formed by deep, well sprung ribs which extend to the hip joints. The underline, or abdominal area, should rise cleanly to the flank. The point of the croup should be no higher than the top of the withers. The tail is set off a long, rounded croup.

**HINDQUARTERS** - Viewed from either side or the rear, the hindquarters are broad, deep and adequately muscled through the thigh, stifle and gaskin down to the hock. When viewed from the rear, there is adequate width extending evenly from the top of the thigh to the gaskin. The hocks are wide set, deep and straight.

**BONES, LEGS AND HOOVES** - Flat, strong bones, smooth joints and proper angulations form a leg that is attractive and functional. The hooves are proportionate to overall conformation.

**MUSCLING** -The AMHS Western Horse should have muscling adequate to function; but is not a heavily muscled breed. Overly heavy muscling is a fault.

**MOVEMENT** - Western horses should track straight and true with a ground covering motion. At all times they should appear confident, balanced and athletic. Excessive knee and/or hock action is a fault and will be penalized.

### **Judging Criteria and Style**

Western horses will be shown in a western horse manner with the horse standing still, calm and square.

The handler should stand towards the left side of the centre line of the horse, more or less facing the horse.

Western show halters will be the accepted standard. An Arabian type halter is unacceptable and will result in a disqualification.

Leads may have chains, but chains may only go under chin and not over the nose or in the mouth.

Razoring of heads will be heavily penalized. Clipping is permitted.

Banding or braiding of manes is prohibited.

Pulled, overcut or undercut manes are acceptable.

Manes should be natural looking and of moderate length.

Tails should be off the ground.

### **Requirements**

1. A horse may not show in more than one type of halter classes at any show (ie **either** Registries Classes **or** Western Classes) with the exception of best presented, colour, trot & head classes.
2. Current rules for handler's dress will apply in Western classes.
3. Western attire is preferred.

### PERFORMANCE AND VERSATILITY (DRESSAGE AND CROSS COUNTRY) TIMETABLING:

To allow competitors to enter events in both rings on DAY 1 and DAY 2 of competition, a detailed timetable (like that used in Dressage competitions) will be used to alleviate clashes. The timetable will be collated after the close of nominations and will have timeslots for each event. Competitors will be issued with a timeslot for their participation in the class. It is hoped that timetables will be sent to competitors before the show to correct any problems that may arise. On the day of your event, if for some reason you cannot make your time, your timeslot is moved to the conclusion of the event. This will keep the flow of competitors moving.

## **VERSITILITY CHALLENGE - Dressage Instructions**

The Dressage component of the Versatility Challenge will be a Freestyle In Hand Dressage Test. The Freestyle test is a great way to show grace, movement, flexibility and the horse's ability, along with creativity and fun.

There are eight (8) movements to be included in the test. These movements can be completed in any order as well as the inclusion of any other movement the competitor wishes to make a smooth, interesting test.
